

YOUR JOURNEY INTO THE CLOUD

Cloud services are an integral part of today's agile, digitalized companies. But the question of which offer best suits your own company is not easy to answer. The path to the cloud must be well planned to ensure a smooth cloud migration.

Google Cloud
Partner

We advise you on all aspects of the Google Cloud Platform – from initial consultation to migration and management of the Google Cloud Console.

1. ASSESS

- Evaluation of infrastructure, requirements and resources
- Decision on the appropriate cloud architecture
- Introduction to the Google Cloud Platform and migration

3. MIGRATE

- Fast migration with minimum downtime
- Seamless data transfer for a frictionless process
- Pre-validation of business critical applications

4. OPTIMIZE

- Cost optimization through utilization analyses
- Evaluation of optimization potentials
- Business Intelligence with Data Analytics
- Planning and development of a cloud-optimized software architecture

2. PLAN

- Selection and prioritization of applications
- Designing the cloud architecture
- Development of a Proof of Concept
- Budget planning

YOUR PARTNER – YOUR ADVANTAGES

Google works with a network of partners to provide customers with personalized, informed and direct service. Since 2012 we have reached the highest level of qualification as a Google Cloud Partner. Furthermore we are a leading local Google Cloud Partner in the areas of Data Analytics und Location Based Services in DACH.

HOW WE CAN SUPPORT YOU

- Individual needs analysis and planning
- Price comparison with other cloud providers
- Management of the Google Cloud Console
- Full transparency and cost control
- Consulting by 12 certified Google Cloud Experts
- Direct, fast service through dedicated contact person
- Optimization of use and consumption
- Convenient payment by invoice without additional costs

CONTACT

“Cloud projects often fail because migration is not planned properly or essential aspects, such as security, are ignored. We support our customers at every step to make the right decisions.”
