

## YOUR PARTNER FOR SMART ANALYTICS

Solving business challenges with data analysis: it's an integral part of our DNA. As a data and location technology consultancy, we support companies that want to drive innovation in mobility and logistics. With offices in Hamburg and Munich, we are a leading Google Cloud Partner in Germany, Austria and Switzerland.

### DATA PREPARATION

Aggregating, preparing and enriching data: Our cloud experts help you harness complex data from multiple sources.

### DATA ANALYSIS

We support you in developing analysis software to gain insights from static and dynamic data.

### DATA VISUALIZATION

All data and findings at a glance: We develop individual tools that allow you to make data visible and usable.

**WE LOOK FORWARD  
TO HEARING FROM YOU**

# SMART ANALYTICS WITH LOOKER: LEVERAGE YOUR DATA'S POTENTIAL

## WHERE YOU STAND

---

- You have data sources that you would like to gather findings from.
- You have various data sources that have not yet been merged.
- Or the data is already centralized, but the right tool to process it is missing.
- You want to enable your teams to work autonomously on a unified database.

## THE SOLUTION

---

- Central data management using a modern data warehouse
- Cost-efficient and fast data management
- Every department and employee can analyze data independently
- Data use and evaluation without long waiting times
- With Looker, analyses are practically possible in real time
- Machine learning makes reliable predictions possible

## WHAT WE OFFER

---

- Sound advice on data analytics and business intelligence in the Google Cloud that's tailored to your company
- Development of your data strategy
- Training for your employees on how to use Looker:
  - Jump Start Training: Overview of Looker's potential for your company
  - Rapid Deploy: With the Jump Start Training as a foundation, we support you in taking the first steps with Looker
  - Further training sessions in implementation
- Everything's from a single source, with no additional costs: Looker license on account, reliable support, assigned contact person
- Certified Looker developers, data scientists and data engineers
- Industry insights from 14 years of mobility & logistics experience
