

WORKSHOPS GOOGLE CLOUD & DATA ANALYTICS

2 PLAN

STRATEGY & PLANNING

Having opted for GCP, would you like to harness the potential of your data and get started on a concrete project?

These workshops will provide you with sound knowledge that you can immediately put into practice.

Cloud Plan Workshop

Together we develop a design and architectural sketch for your application. You receive a well-founded total cost of ownership (TCO) analysis and a proof of concept.

Target Groups:

DevOps, Product Owners, Software Architects, Specialist Fields

Data Strategy Workshop

We discuss which questions you want to answer in the context of data exploration as well as what sort of data is available in what format. You will learn how your data warehouse is structured and should be ideally set up. We take a closer look at the topic of data engineering. You will learn the basics of data analysis and machine learning as well as how to leverage data throughout your company.

Target Groups:

Data Analysts, CTO, CIO, Data Engineers, Data Scientists, DevOps, Compliance

We work together to create a strong foundation for your work in the cloud. The workshops are held in small groups of up to 12 participants – remotely or at your location.

Prices:

1-day workshops: 3,600 euros

Multi-day workshops: starting from 5,400 euros
