

SERVICES AND COSTS OF GOOGLE MAPS PLATFORM

ubilabs

GOOGLE MAPS PLATFORM

With **Google Maps, Places, and Routes**, Google Maps Platform provides the ideal basis for custom map applications. Each of these Google Maps products includes a set of **APIs and SDKs** with **200 USD free monthly usage**. If usage exceeds this free credit, customers are charged based on their consumption.

There are two options for customers to use Google Maps Platform: in online self-service or through a Google Partner. For self-service, you are billed in dollars via credit card. With **Ubilabs as a certified Google Partner**, you not only benefit from our many years of expertise, but also **gain access to high-volume pricing discounts**.

APIs and SDKs for Google Maps

Google Maps - the basis for static and interactive map applications

Maps API for Android

Maps SDK for iOS

YOUR PARTNER – YOUR ADVANTAGES

DISCOUNTS AND SERVICES

As the leading **Google Cloud Partner** in the DACH region, we offer Google Cloud, Google Maps, Google Workspace and Looker from a single source. We advise you on the **implementation and migration** of Google Maps APIs and support you in **optimizing your usage**. You'll benefit from our **expertise in developing custom map applications** for companies from a wide range of industries.

INDIVIDUAL PRICING

As a Google Cloud Partner, we can offer you individual price packages and high-volume pricing discounts.

FULL COST CONTROL

We will help you to develop a set-up that will enable you to control costs and optimize rights management. Our usage analyses support you in controlling and optimizing costs.

FLEXIBLE BILLING OPTIONS

For corporations, we offer framework agreements with invoicing to individual departments or subsidiaries. With us, usage is invoiced in euros, while online selfservice is billed in dollars via credit card.

CERTIFIED SUPPORT

We help implement and utilize the Google Maps Platform in the best way possible. We're fast and reliable – in both German and English.

PAYMENT BY INVOICE

With us, you pay upon receipt of an invoice. This means that you don't have to provide credit card details in your billing account.

MONTHLY USAGE

Self-service contracts receive access to two consecutive pricing tiers. After that, the price per API request remains static. With us, **you gain access to discounts via further pricing tiers.**

All Google Maps APIs and SDKs as well as all Google Cloud Platform services are available through a single billing account. Google Maps services are billed based on usage with a free **monthly credit of 200 USD**. In the [Google Cloud Platform Console](#), you can get an overview of your current API usage.
